Have you ever had cancer? _____ If yes, what kind? _____

When diagnosed? _____ When treated? _____ How long out of treatment? _____

Some of our most effective volunteers are survivors of cancer themselves or of a loved one. OjaiCARES honors self-care as a priority, so we **strongly** recommend volunteers be one-year out of treatment to work directly with our client community. We are happy to discuss the recommendation on a case by case basis, and also have other volunteer positions where you can get started.
